what matters.

February 16, 2011

To Whom It May Concern:

The Nonprofit Development Center at the United Way of Tyler/Smith County recently facilitated a training session for executive directors of nonprofit agencies in Smith County. Mark Seguin of TBG Fraud Solutions was our keynote speaker. With his unique style and humor and real-world examples he conducted a logically ordered presentation regarding social networking, identity theft awareness and data breach prevention. He proved to be a valuable resource and we are asking him to return for a second training in March.

The attendees were more than pleased with the concise, digestible information and commented on how helpful it was to open their eyes to possible risks in their offices. They also said the training will help them greatly in evaluating the administrative processes used in handling and securing data as well as adopting policies in their offices.

Organizations that handle and maintain sensitive information on employees, clients, customers or patients must take reasonable steps in preventing accidental data loss. I would recommend partnering with TBG Fraud Solutions to utilize their suite of trainings and services. If further information is desired, please feel free to contact me by phone at (903) 581-6376.

Sincerely,

Jo McMahan, Director
Nonprofit Development Center
